DESCRIPTION

SynGard™ Full Synthetic Fleet Heavy Duty Transmission Fluid is a premium full synthetic transmission fluid. The synthetic base oil provides high performance in harsh operating conditions. The high viscosity index and shear stability protects transmissions against thermal breakdown at high temperatures.

SynGard Full Synthetic Fleet Heavy Duty Transmission Fluid is designed to be suitable for most heavy duty automatic transmissions. It offers outstanding gear shifting and power transfer performance.

Martin Lubricants recommends [this product] for use in applications where the OEM specifies a fluid providing performance capability comparable to the Allison TES-295 specification.

APPLICATION

- Heavy duty pickup trucks
- Commercial vehicles and trucks
- Emergency vehicles
- Off-road and on-road highway vehicles
- Municipal fleets, vans, and school buses

BENEFITS

- High Viscosity Index
- Excellent shear stability, corrosion and foaming resistance
- Excellent low temperature properties
- Excellent thermal and oxidation stability
- Superior wear control and energy efficiency
