**PREMIUM PROTECTION**

for diesel engines

---

**Year-Round Formulation for Premium Fuel Performance**

**Low Temperature Formulation for Anti-Gel Requirements**

---

**DESCRIPTION**

STP® Diesel Fuel Treatment is designed to protect diesel engines from sticky and gumming deposits as well as accelerated wear. STP Diesel Fuel Treatment is a multifunctional diesel fuel additive formulated to provide improved performance and winter operability in today's modern diesel engines. It is safe for use in heavy-duty diesel powered equipment for on-road, off-road, and marine use.

STP® Diesel Fuel Treatment Low-Temp contains cold flow improvers and anti-gel agents to lower the operating temperature of diesel fuels. Excellent low-temperature properties achieves lower pour point, cloud point, and cold filter plugging point (CFPP).

---

**BENEFITS**

- Cleans up and prevents internal injector "sticky" deposits
- Helps keep injectors clean for more efficient engine operation, reducing the extent of both power and emissions deterioration, meets the latest DW-10 performance test
- Improves ignition quality, raising cetane by up to 2 numbers for easier engine starts and faster dissipation of white smoke
- Increases lubricity, extended the life of critical fuel pump and injector parts
- Increases fuel stability and corrosion control, reducing filter plugging, sludge formation, and fuel system corrosion

**PERFORMANCE**

These products qualify for the USA EPA CFR80.591A certification, meaning the final product contains < 15 ppm (mg/L) sulfur.

STP Diesel Fuel Treatment and STP Diesel Fuel Treatment Low-Temp are formulated to with Greenclean™ Detergent Technology, providing complete injector cleanliness protection, including sticky internal injector deposits that can lead to poor engine performance and excessive downtime and maintenance costs.

Field tested under SAE J-1321 providing more than 2.0% fuel improvements and demonstration of more than 3% power improvements in Class 8 tractors.

**DOSAGE**

- **Clean Up - First Tank**
  - 1 Bottle to 1 Tank
  - 64 fl. oz. treats 150 gal.

- **Keep Clean - After First Tank**
  - 1 Bottle to 2 Tanks
  - 64 fl. oz. treats 300 gal.
